TSC Truck, Inc. is an official dealer for Demco

Maurer steel grain trailers are equipped with LED sealed beam lights. Every light is mounted in a shock proof rubber grommet. Combine this with our wiring system and you can plan on years of trouble free use. Note the unitized corner which is an exclusive feature on Maurer steel grain trailers.

Custom Paint

Take your Maurer steel grain trailer a step farther with custom colors - support your favorite teams - *"Go Cyclones"*.

Inverted Horizontal Ribbed Construction

It exceeds the vertical rib "corrugated" side trailers

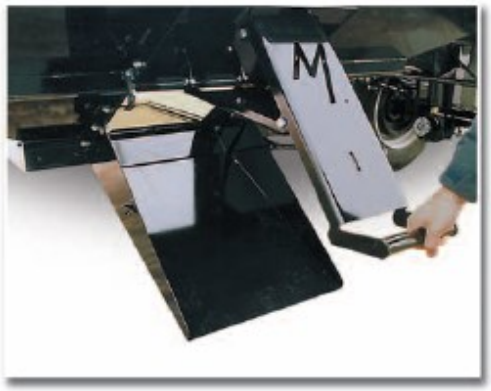
Available Options:

Side-discharge chute	Pintle hook	Front aluminum platform
Rear aluminum platform	Electric roll tarps	Front mud flaps
Double ridge straps	Air ride Suspension	Stainless Steel corners
Electric hopper doors	Tarp cable return	Scale O Matic
2-gear reducer on hopper door	Trailer Color (red, navy blue, gray or black)	Aluminum rims, hub piloted

Optional Maurer Side Discharge Chute



A Maurer side discharge chute has 9 inches of discharge height and 35° of slope while still reaching within 2" of the side of the trailer. These traits make this side discharge the most user-friendly on the market!

The hoppers on Maurer steel grain trailers are built to receive a retrofit side discharge chute. Anytime during the life of your trailer you can order a chute and add it to your trailer.

Adding this retrofit side chute is a simple assembly, cutting the discharge hole in the left side of the hopper and than bolting it on.
